

**RESTRICTED VETERINARY MEDICINE
KEEP OUT OF REACH OF CHILDREN
FOR ANIMAL TREATMENT ONLY**

PROPALIN® Syrup

DESCRIPTION

Propalin Syrup contains 50 mg/mL Phenylpropanolamine Hydrochloride.

INDICATION

For use in bitches as an aid in the control of urinary incontinence associated with urethral sphincter incompetence.

DIRECTIONS FOR USE

Contraindications

**DO NOT use in pregnant animals,
DO NOT use in conjunction with other hypertensive drugs.**

Adverse Reactions

Aggressiveness and restlessness have been noted in some animals following treatment. Use of the product may not be fully effective in all treated animals. Sympathomimetics may produce a wide range of effects, most of which mimic the results of excessive stimulation of sympathetic nervous system. Headache, hypertension and dizziness have been reported in humans. Propalin Syrup contains sorbitol which has laxative properties. However, such activity is unlikely at the recommended dose.

Dosage and Administration

3 drops/ 4 kg bodyweight twice daily or 1 drop/ 2kg bodyweight three times daily given orally with food.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre on 0800 POISON (0800 764 766).

DISPOSAL

Dispose of empty container by wrapping in paper and placing in garbage.

STORAGE

Store below 25°C (Air Conditioning). Protect from light.

PACKAGING

The product is packed in 30 mL white bottle with black caps and clear dropper inserts and 100 mL white bottle with a white lid and a measuring syringe.

Not all pack sizes may be marketed.

Registered pursuant to the ACVM Act 1997, No. A007664
